Buddy Dive Liveaboards

- Enjoy the difference!

More space.

More comfort to enjoy the enchantment.

The cabins with their pleasant contemporary interior design allow a maximum of comfort and space.

Local decision maker.

Our partner's home base is Galapagos.

In case that a quick decision needs to be made, it is possible by our local partner. He knows the islands, he knows people & possibilities and can arrange a solution on the spot, if necessary.

Time buffer.

No worries, if your plane comes in delayed! Hop-on on day 2 also possible.

The cruises start on San Cristobal Island on Saturdays. As they head for North Seymour / Mosquera on Sunday, passengers, who missed the cruise start or lost their luggage, need to complete their equipment etc, have a second chance to fly to Baltra Island and embark the yacht on day 2.

Jet propulsion.

Reduced safety risk for man and marine life.

Buddy Wolf and Buddy Darwin are the first yachts with a jet propulsion. This means that they are not only faster (and reduce travel times), but also make environmentally friendlier cruises possible. We achieve more security for divers and creatures around the vessel by not threatening their well being with fast turning propellers that might cause severe injuries.

Custom-made.

Fulfilling diver's needs and requirements ... and a little more.

Buddy Wolf & Buddy Darwin are the first true custom-made dive vessels cruising the Galapagos.

So everything is catering divers and their requirements. We even have a specially designed dive and activity platform with a heated area. All divers will be received back on board with a warm towel and a cup of delicious Ecuadorian hot chocolate.

Plenty of additional ideas.

Hospitality without limits ... we are continuously creating more amenities for our guests.

You may remain curious! There are much more extras to come... We'll keep you posted!

Buddy Dive Resort Bonaire.

Making the trip complete.

For all those who want it all: a dive safari **and** land based excursions.

To maximize the underwater time combine a Resort vacation **and** the dive safari. Unlimited dive packages are available at [Buddy Dive Resort](#), Bonaire.

Nitrox included.

No extra charges for those who choose to dive Nitrox.
